25X1X7 [REDACTED] Reports

25X1A2g

1. Reference [REDACTED] (copy attached). Every effort has been made through OCD to locate the subject series in Washington but without success. It is possible that copies of the series are being forwarded to Washington, but if so, they are being forwarded by liaison officers either [REDACTED] or with 25X1A6a and in such manner that they are not being recorded by either A-2 or I.D.

2. This week when [REDACTED], made a courtesy call 25X1C8c on this office he stated that he felt sure that [REDACTED], could easily arrange 25X1X7 to make this series available to CIA on a continuing basis. In view of this statement and also of the presumed covert nature of the reports, it is requested that you have your [REDACTED] make such arrangements. Since OSI are extremely anxious to receive these reports, two copies of these would be most desirable.

25X1A6a 3. If you concur, please also dispatch the attached cable to your [REDACTED] for transmittal to [REDACTED] 25X1A9a
